About Us

Akademос Society is a registered charity organisation based in Australia.

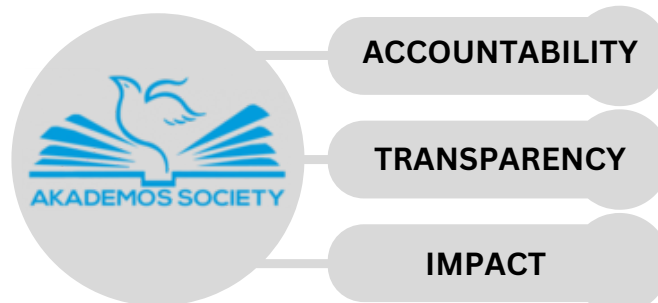

It is run by a group of volunteers who work with local partner organisations in Afghanistan & Pakistan.

Our objective is to enable disadvantaged students to realise their full academic potential through provision of financial grants, scholarships, academic assistance, and other educational and learning opportunities. Our programs enable disadvantaged yet academically talented students to pursue their educational aspirations.

Over the past ten years, our programs have supported hundreds of school, college and university students to complete their education.
